Peer evaluation template

Use this form in the stated units of your module to assess your team members' performance, including your own, in the group/team assignments. This feedback will not be shared with your team members. However, it will be considered for your final grade for the unit assignments. The full guidance is on the Department page.

Name	Asma Umar
Group/Team number or name	Group 1

Team evaluation

Write the name of each of your group members in a separate column. For each person, indicate the score to which you agree with the statement using the rating scale below. Extreme scores (1 and 5) will need to be justified with comments as they are reserved for extraordinary events (lack of participation or going above and beyond, respectively).

Rating Scale

1 - Did not contribute in this way
2 - Willing but not very successful
3 - Average
4 - Above Average
5 - Outstanding

Justifying the score

To make the assignment easier to manage, we divided it into four parts, with each student responsible for one section. Everyone completed their allocated part on time and contributed to the project, which helped us work effectively as a team and complete the overall assignment on time.

1. How effectively did your team work?

   As a team, we worked very well together because we made the best decision to divide the assignment into four parts. Each member took responsibility for one section and completed their allocated part on time. Because everyone completed their work on time, we were able to bring all the sections together and complete the project on time.

2. Were there any behaviours of your team members which were particularly valuable or detrimental to the team? Explain

   The most valuable behaviour was that everyone took responsibility for their allocated section and completed their work on time. Team members were cooperative, shared ideas, and supported each other when needed. I did not experience any behaviour that was particularly detrimental to the team.

3. What did you learn about working in a team from this project that you will carry into your next group/team experience?

   I learned that clear communication and sharing responsibilities can make group work easier and more organised. I will use these skills in my future projects and assignments.

Self-evaluation
